-

PROFESSIONAL EXPERIENCE

Assembly Global | Manager, Data Analytics

Bengaluru

- **Taxonomy Engine Web App Development:** Architected and developed a multi-tenant, Dockerized web application for managing digital marketing naming conventions and automated taxonomy generation.
 - Implemented a "Lego-style" UTM builder and dynamic taxonomy forms, significantly reducing manual effort for the activation team.

- Designed automated SQL report generation for BigQuery and PostgreSQL, enhancing cross-channel data accuracy.
- Led technical implementation and troubleshooting of tracking solutions across Campaign Manager, Google Cloud Platform, Meta, TikTok, and Google Merchant Center.
- Developed a proprietary first-party CRO solution using GTM and JavaScript, enabling in-house A/B testing and enhancing client service value.
- Integrated complex data workflows using SQL, Python, and API integrations to deliver robust data solutions and actionable insights.
- Managed and mentored a team of analysts, nurturing a culture of continuous learning and comprehensive knowledge sharing.

Flatworld Solutions | Web Analyst

Bengaluru

- Designed a robust tagging architecture via Google Tag Manager, ensuring streamlined tracking across 19 websites.
- Maintained comprehensive tagging taxonomy for enhanced data accuracy and consistency.
- Created insightful dashboards using Looker Studio and MS Excel, transforming data into actionable intelligence.
- Collaborated with Marketing/SEO and Web Development teams to amplify marketing initiatives and brand presence.

Regalix | SME Technology / Senior Consultant / Implementation Consultant

Bengaluru

- Promoted to SME; supported 200+ consultants with advanced JS code and GTM solutions for Google tracking.
- Facilitated client transitions to GA4 and managed high-priority cases as part of the exclusive MMS pilot programme.
- Enabled advanced tracking functionalities within Google Ads/Analytics using hard coding and GTM.

Dell International Services | Senior Technician / Technician

Bengaluru

- Managed hardware and software challenges for commercial and consumer clients; drove sales for non-warranty services.
- Supported business continuity during the COVID-19 pandemic by transitioning to US Out-of-Warranty Sales Support.

Sutherland Global Services | Tech Support Analyst*Cochin*

- Elevated to Team Resolution Expert; led a team of 18 to expedite resolutions and boost sales conversion rates.
-
